

# A FEW SMALL DETAILS THAT MAKE A BIG DIFFERENCE

## Make The Workplace a Safer Place

Creating a safe workplace that sends employees home in good shape at the end of the day is of the utmost importance in any line of business.

While our Risk Control Department shows its commitment to that mission by working to reduce hazards in the workplace year-round, perhaps no initiative is more important than the OSHA 10-Hour General Industry seminars we put on each year.

**Our next OSHA 10-Hour General Industry Seminar will be Tuesday, September 17th, 8:00 am - 4:00 pm and Wednesday, September 18th, 8:00 am - 12:00 pm.** This seminar is available **FREE OF CHARGE** to Society Insurance policyholders. The class will be held at the Radisson Hotel at 625 Rolling Meadows Dr. in Fond du Lac, WI 54937.

The OSHA General Industry class provides important information to many classes of business. Some of the topics that are covered include:

- Introduction to OSHA
- Walking and Working Surfaces
- Emergency Action and Fire Prevention Plans
- Hazard Communication
- Personal Protective Equipment
- Machine Guarding
- Lockout/Tagout

**Online registration is now available for all Society risk control education and training sessions at [societyinsurance.com](http://societyinsurance.com) by going to the Risk Management tab and clicking on Education & Training, or [click here](#).**

If you have not attended an OSHA 10-Hour seminar, please consider doing so. If you have attended, are there other managers or supervisors in your organization who would benefit from attending? Please feel free to forward this notice to them. This class can be useful to almost every industry and multiple attendees from the same employer are welcome. This will be our last 10-Hour for General Industry until 2020.

Should you have any questions, please contact Matt Anderson, Risk Control Manager, at 888-576-2438, ext. 5675, or [manderson@societyinsurance.com](mailto:manderson@societyinsurance.com).
